GEDORE @WORK

IDEALLY EQUIPPED FOR STORAGE AND ACCESSORIES

THERE ARE LOTS OF GREAT TRANSPORTATION SOLUTIONS

from the company to the place of work. WORKMO® and the Mixx&Click system are GEDORE's modular, mobile tool storage systems. Where to do with all the tools when you are on a ladder, on a top-floor gable, in the pit or under the hydraulic lift? That's when you need a central, mobile tray or store for tools and incidentals!

Hands free for working, holding on or securing things and yet with the tool you need always to hand - no problem as long as you have the right storage system and accessories.

Available in the GEDORE @work range are not only tool cases and belts with a host of optional bags, holsters and hooks but also rucksacks and tool vests. Tools are securely kept in them and are always to hand when needed.

ALL @WORK PRODUCTS

ensure no freedom-of-movement restrictions, tool weight optimum distribution and every bag holding what it is meant to hold. Thus the material is particularly rugged, long-lasting, easy to clean and with the capacity to take up considerable loads. All made possible thanks to a smart mix of leather and synthetics and reinforced base inserts. As such, even large, heavy bags remain stable with no wearing through of the bottom or sides. All bags are finished in double-stitch safety seams. Attached holders and bag covers are even reinforced, in part, with safety rivets. Nothing gets lost thanks to absolutely secure fasteners. Tools and incidentals, such as bits and screws, remain in place.

And the best thing is that all bags, holsters and belts of the @work series are combinable. Besides the extended functions, diversity and appearance have undergone changes. Along with the new bags and scope for individualisation, the tried-and-tested @work products have also been redesigned.

1 Practical

- › Tools always to hand
- › Optimum, clear compartment arrangement
- › Sufficient storage space

2 Rugged

- › Low-on-wear leather and synthetic mix for durability
- › Safety rivets and seams for extreme robustness
- › Low intrinsic weight and high load-carrying capacity
- › Stability even with heavy contents
- › Easy to clean:

3 Safe

- › Optimum weight distribution
- › Unlimited freedom of movement
- › Hands free for securing and working
- › Secure fasteners

4 Individual

- › Combinable with other @work products
- › Available empty or with a range of tools
- › Extendable at any time
- › Adjustable belt and fastener sizes

GEDORE WORKMO® – THE MOBILE ORDERLY ARRANGEMENT, TRANSPORT AND WORKING SYSTEM

Thanks to the modular and ergonomic design, the GEDORE WORKMO® system efficiently unites transport, orderliness and workplace. The box modules are quickly and easily transformable into portable units. They, in turn, are lightweight, load-securing and crash-tested. The assembled box modules provide for a dependable tool/working station. As such, WORKMO® is ideally adaptable to the needs of every operation and brings about maximum flexibility and professional support on a daily basis. Optional castors also allow use as a mobile workstation. Equipping the WORKMO® drawers with pre-configured tool sets in matching foam inserts and the scope of the GEDORE iMOD range for individualising tool module requirements round off the overall package. Practically all requirements are thus covered.

The drawer sizes and module variants are shown on a joint basic grid. The raster determines the drawers (blue) which are individually combinable with the tool modules (coloured). Configuration examples are on the right.

FEATURES

WORKMO

1 Light:

- > Low weight due to aluminium-plastic mix
- > Ergonomic working heights

2 Individual:

- > WORKMO® adapts exactly to the requirements of your individual working day
- > With the foam configurator the tool equipment can be arranged individually

3 Compatible:

- > with the Sortimo® L-BOXX® range
- > with the GEDORE tool modules 1500 ES/1500 CT

4 Sturdy:

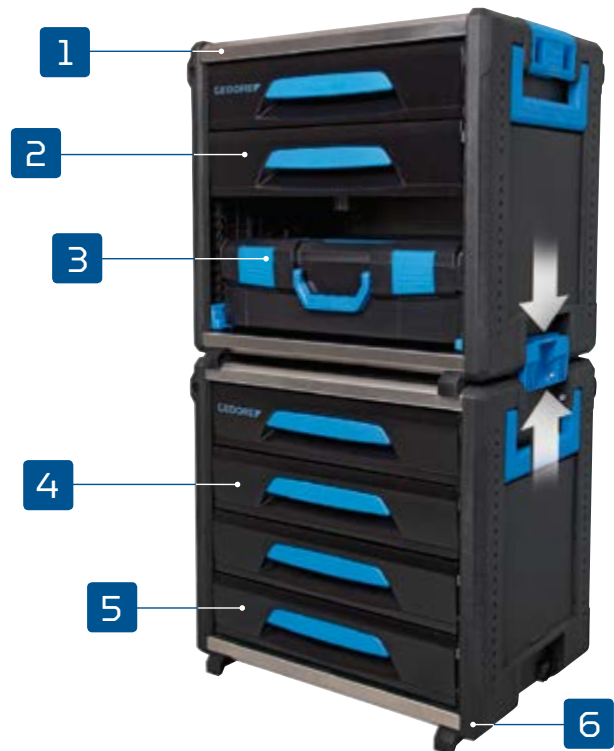

- > Robust handling – lockable - durable
- > Rounded plastic edges for impact and scratch protection

5 Drawer equipment:

- > Ideal for fitting out with WORKMO® modules complete with GEDORE tools
- > Modules for two drawer widths

6 Flexible:

- > Expandable at any time (with castors, worktop etc.)
- > For further system components see Sortimo®

THE GEDORE MIXX&CLICK KIT

The Sortimo transport box system is perfect for mobile deployment requirements. The MIXX&CLICK kit is based on the proven GEDORE L-BOXX® 136 with front grips and tool board in the lid and the GEDORE i-BOXX® 72. These are multiply compatible and therefore extremely flexible. A high degree of individualisation is realizable. Thus, the MIXX&CLICK system features, in particular, a wide scope for combinations as a result of the pre-configured GEDORE tool ranges. Even modules from other manufacturers, such as Bosch electrical instruments, can be used. Together with other components from the Sortimo® range of tools (transport boxes and system components) a well-organized “to go” workshop is built up to match your personal requirements.

FEATURES

1

Tool board

> for re-equipping or customizing the L-BOXX® depending on the work involved

2

Tool modules

> for equipping the L-BOXX® with 1/2 and 2/2 modules

3

i-BOXX® RACK-ACTIVE click system

> ensures your i-BOXX® tool assortments are securely transported. It is compatible with all L-BOXX®es

4

L-BOXX® roller

> Fit and click to attach roller and BOXX®

The heart of the kit - GEDORE L-BOXX® 136 with front grip powered by Sortimo® - features:

- › Strong construction
- › Easy and convenient transfer of tools to where they are needed
- › Impact-resistant ABS plastic
- › Standard lid handle to carry the L-BOXX® horizontally
- › Additional kind-to-hands front grip to carry the L-BOXX® vertically
- › Splash-proof
- › GEDORE tool board for a clearer arrangement and more storage space
- › Easy-click system: Practical plug connection for two or more L-BOXX®es, for a secure grip and easy transport
- › No-problem integration in vehicles with the TÜV-tested Sortimo® vehicle fittings

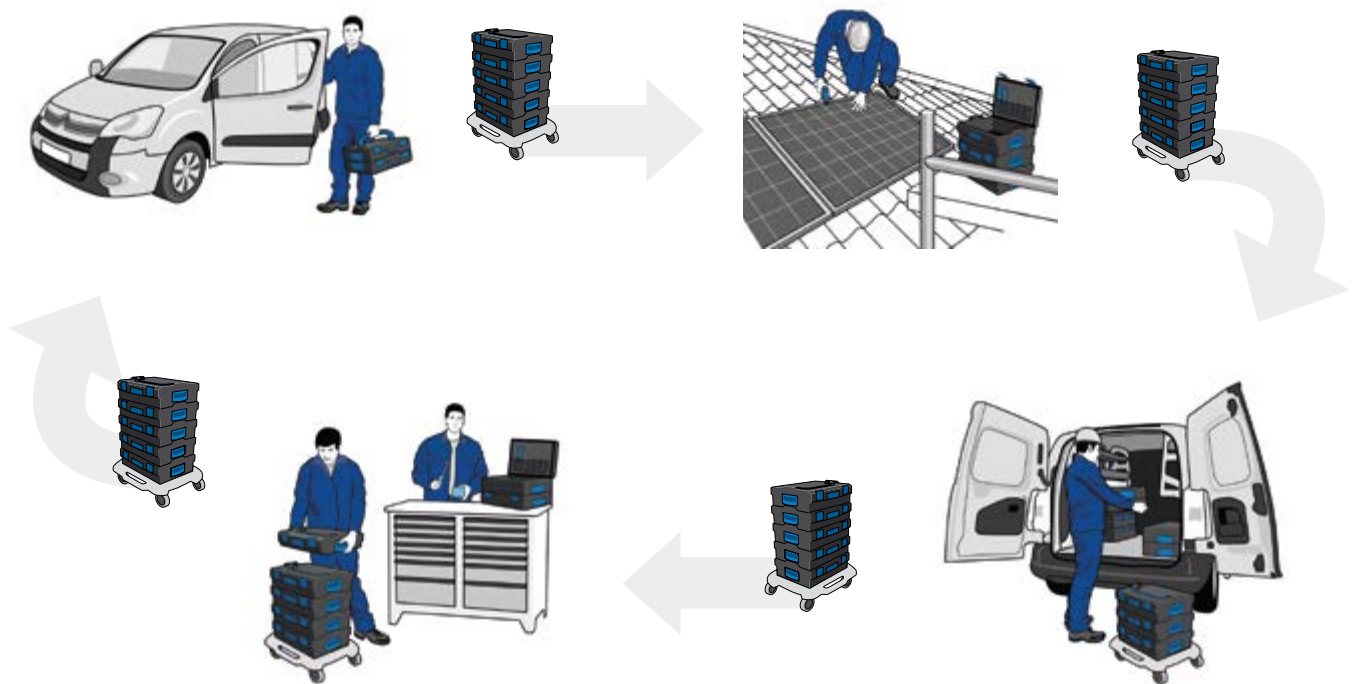

2 STRONG PARTNERS - 1 SYSTEM

MOBILITY IN PERFECTION

Sortimo®
Intelligent Mobility

- › Tools, machines and material must be easily, safely, quickly and conveniently transported to the place of use i.e. in a preferably resources-saving manner.
- › Lengthy loading times must be avoided at all costs - guaranteed load securing is a pre-condition here!
- › GEDORE's Sortimo® transport box system relies on a tried-and-tested mobility standard.
- › The perfect alliance for intelligent, efficient process and project design planning.

Your advantage

- › Intelligent order systems
- › Flexible, modular and individual
- › Ideal for mobile deployments
- › Diverse and highly efficient
- › Quick accessing of tools - perfect organisation
- › Transport box standard - e.g. compatible with electrical tool manufacturers
- › Guaranteed safety

For your safety

- › The GEDORE L-BOXX®es are fully compatible with Sortimo® vehicle fittings.
- › GEDORE L-BOXX® quality is constantly examined on the basis of the strict Sortimo® directives. Sortimo® has its quality endorsed through crash tests organized by the TÜV.
- › If it comes to the worst, then the tools stay where they belong - securely in their GEDORE L-BOXX®

MANUAL BENDING TOOL SET

in GEDORE L-BOXX® 136, 9 pieces

- › Sizes from 6 to 15 mm Ø, up to 180°
- › Easy bending with reversible ratchet 1/2" in long version
- › For soft copper pipes EN 1057 (also with fixed coating), thin-walled precision steel pipes as well as pipes in non-ferrous metals
- › For clamping in a vice or useable as bending pliers
- › 7 bending formers for pipes with Ø 10, 12, 14, 15, 18, 20 and 22 mm and corresponding counter-supports
- › GEDORE L-BOXX® 136 with an easy click attaching system

Contents	W	D	H	pieces	Code	No.	
1 bending lever No. 243010	442	357	151	9	4568450	1100-243100	7.4
1 tool holding fixture No. 243070							
1 reversible ratchet 1/2" No. 1993 U-10 L							
5 pipe bending formers Ø 6, 8, 10, 12, 15 mm							
1 pipe cutter 3-35 mm Ø No. 2250 3							
+ GEDORE L-BOXX® 136 No. 1100 L
